

# Enthusiasm for Innovation

Patients at Louisville Orthopaedic Clinic experience the latest technological advances in orthopaedic care packaged with comfort, care, and convenience.

Louisville Orthopaedic offers online bill payment, prescription and appointment requests, electronic medical records, a secure patient portal, and several onsite advantages: Open MRI, Fuji advanced digital X-ray imaging system, physical therapy, and an outpatient surgery center. Physicians work closely with LOC's Sports Rehab Center to provide you with the best in orthopaedic care.

While embracing innovation, the staff has created a uniquely comprehensive service center while

maintaining the warm, friendly atmosphere patients appreciate. All ten physicians are board certified in orthopaedic surgery and have completed specialized training.
